

SUNNYSIDE VALLEY IRRIGATION DISTRICT
P.O. BOX 239
SUNNYSIDE, WA 98944

PUBLIC NOTICE

The Sunnyside Valley Irrigation District (SVID) will be applying aquatic weed herbicides to its irrigation canals and laterals between May 1st through October 1, 2008 in accordance with Washington Department of Ecology Administrative Order No. 01WQHQ-2935.

The treatments will be made to a majority of the irrigation facilities within the SVID boundaries in Yakima and Benton Counties.

The chemical proposed for use is MAGNACIDE[®] H Herbicide, active ingredient is acrolein, to control vegetation growth.

Application sites will be posted with the name and telephone number of SVID. Waters within SVID are intended for agricultural purposes only and are not for human consumption or primary contact such as swimming or aquaculture. Irrigation facilities can be dangerous, are not for public use, and intended only for operation and maintenance personnel.

Herbicides will be applied by licensed SVID personnel. District office telephone no. (509) 837-6980.

Washington Department of Ecology contact is Ray Latham, Central Regional Office, telephone No. (509) 575-2800
