

District Engineer Sunnyside Valley Irrigation District

Sunnyside Valley Irrigation District has an opening for the position of District Engineer in the Sunnyside office. The opening is a full time position. The District Engineer reports directly to the General Manager and supervises a staff of about 6 engineers/engineering technicians, a water quality specialist, and a water quality technician.

Duties:

Duties include engineering support in the design, construction, operation, and maintenance of irrigation and drainage facilities. Facilities include open canals, gravity laterals with weir blades, enclosed gravity pressure and pump pressure laterals with impeller type flowmeters, open drains, pipe drains, electric pumping plants, hydro-turbine pumping plants, settling basins, re-regulation reservoirs, and check structures.

Minimum Qualifications:

Minimum qualifications include a Bachelor of Science degree in Civil or Agricultural Engineering with a minimum of 5 years experience in engineering design, construction management, and related assignments or a two year degree in engineering technology with a minimum of 8 years experience in water resource engineering. Professional registration or eligible is preferred.

Anticipated salary range is \$70,000 to 80,000 DOQ.

To be considered for this position, please request an application (509 837-6980 or www.svid.org, news tab). The completed application together with your resume must be submitted by January 24, 2011, to Sunnyside Valley Irrigation District, P.O. Box 239, Sunnyside WA 98944, attn District Engineer Opening (or e-mail schrammd@svid.org).
