Forrest Chapin
Roza-Sunnyside Board of Joint Control WQ Lab
PO Box 239
Sunnyside, WA 98944-0239

Dear Forrest Chapin:

Thank you for your application for renewal in the Environmental Laboratory Accreditation Program. Attached is a new Certificate of Accreditation covering the one-year period beginning June 14, 2024 and a current Scope of Accreditation.

In order to comply with the 2021 CWA MUR, applicable methods on your scope of accreditation have been updated to method versions approved under the 2021 CWA MUR.

Please ensure these method versions are those used in the laboratory and cited on your PT reports.

Update your SOPs to the approved method versions.

Laboratories accredited for methods from "Standard Methods in Water and Wastewater", should implement the QC sections in the 23rd edition of Standard Methods.

Based on your laboratory's most recent PT Study results, full accreditation is warranted for all applicable parameters. As a reminder, continued participation in the Ecology Lab Accreditation Program requires the lab to:

- Submit a renewal application and fees annually
- Report significant changes in facility, personnel, analytical methods, equipment, the lab's quality assurance (QA) manual or QA procedures as they occur
- **Participate in proficiency testing studies semi-annually, with the following exception: For each parameter where all PT results were satisfactory for the past accreditation year, you are required to submit only one PT result over this next year, and in subsequent years, as long as the results are satisfactory.**

If you have any questions concerning the accreditation of your lab, please contact Jason Gillilan at (509) 907-3044, fax (360) 871-8849, or by e-mail at jason.gillilan@ecy.wa.gov.

Sincerely,

Rebecca Wood
Lab Accreditation Unit Supervisor

ENVIRONMENTAL LABORATORY ACCREDITATION PROGRAM

SCOPE OF ACCREDITATION

Roza-Sunnyside Board of Joint Control WQ Lab

Sunnyside, WA

is accredited for the analytes listed below using the methods indicated. Full accreditation is granted unless stated otherwise in a note. EPA is the U.S. Environmental Protection Agency. SM is "Standard Methods for the Examination of Water and Wastewater." SM refers to EPA approved method versions. ASTM is the American Society for Testing and Materials. USGS is the U.S. Geological Survey. AOAC is the Association of Official Analytical Chemists. Other references are described in notes.

Matrix/Analyte	Method	Notes
Non-Potable Water		
Turbidity	SM 2130 B-2011	
Solids, Total Suspended	SM 2540 D-2015	
Fecal coliform-count	SM 9222 D (mFC)-06	
E.coli-count	SM 9223 B Colilert® 24 QTray®
